INNER WEST

Welcome to the Creative Capital of Australia

Inner West Council is proud to present this incredible program, testament to the uniquely creative, diverse and forward-thinking community and lifestyle for which our Inner West is renowned.

Over two weekends, arts and community unite for an incredible celebration of Postcode 2044.

Home to the highest population of cultural sector workers in Australia, this is your chance to discover where art is made, who is making it and why it matters.

Follow the Creative Trails self-guided map, book a guided tour or workshop to explore an underground world of makers, machines and warehouses buzzing with artist spaces, studios, performers and producers.

Dweeb City with Darcy Byrne, Inner West Mayor. EDGE Sydenham 2019

Learn how creatives experiment, invent and produce new products, bringing ideas and inspiration to our homes, streets and public spaces. Be first to witness new works across theatre, dance, conceptual and visual arts, conceived and created right here locally – destined as cultural export to the world.

Then on Saturday 20 August, bring your friends and family to Sydenham Green for the most incredible day and night showcase celebration of our creative community and all that's on offer in Postcode 2044.
