Best idea

My best idea is to create App 'MEHELP'
to remind people to do someing nice
for family, neighbour, help an eldorly
person, friends or a strangers by completing
task. like put the dishs away, take
a photo of a rainbow, take photo
of a full moon, take a photo of a
white cat and take photo of a
pickle. Share a short video of your
tasks.
you Can play with friends.
point for copleting the task
highest. point system with a timer
to complete each tasks. The reason
for this App 'mehelp' is to help
people to use their surrouning
and to encourage them to help
people by doing a good deeds.
