Write a short story about your best idea ever.

I have lots of amazing ideas but I will only tell you one.

I was sitting on my couch with my sister and her friend. We were watching a stunt movie. And then it hit me! "We should build a zipline"

I said. "That's a great idea!" said my sister! So we started to gather the stuff to build a zipline. I was the one to test it.

It was a about 10 meters long,  $2\frac{1}{2}$  meters high.

Although I got a slight injury, it was super fun. In fact it was so fun, my sister and her friend had a go too. I hope you enjoyed my great idea.
