

## Writing competition

Reading is magic and can transport you to amazing and curious places.

Write a short story about a wonderful and magical place.

Chihuahua Land is an underwater kingdom, where all the chihuahuas go for meetings. To get there, you have to pass a series of puzzles and clues, that will lead you to a river, and you will dig five meters deep at the spot that the clues mark out. You will use the buried supplies to make your way across the river, and soon you will find a dead end covered with vines. If you push aside the vines, it will reveal a hole filled with purple liquid swirling in spirals. There should be a small numeric keypad next to the hole, and you will enter the numbers: 123456789. The purple liquid will disappear, and you will dive into the hole. Make sure that you are wearing a swimsuit and a snorkel, because you will be diving into deep water. What you see under water is not just any old village, it's an underwater chihuahua village, with donuts the size of elephants, and fairy floss that explodes when you chew it! The king of this fantastic land, (King Chihu) lives in a giant sand castle stuck together with glue, on top of a giant hill of sand. King Chihu is also the king of many other underwater kingdoms, including Guinea Pig Land, Koala Kingdom, and Capyburra Country.
