Super Spaghetti disaster!

Thomp, Thomp! As Scarlet stomped to the dinner table, she shouted "Mum I want cereal for dinner.

"Hun I am afraid we have to have Broclic and pea soup," said Mum. Im Sorry. EWWW Yuck!

I'd rather fave pumpkin and Brocilie Soup.

Ok then... Splat! Spooky the cat accidentally knocked over a box o uncooked Spaghetti.

Uh no poor Mum had to tidy up all the pasta.

Mum can I have... "No you can not have cereal,"

shouted Mum. No Silly I want Spaghetti with no meat balls, lots and lot's of cheese and the

red sauce. "What Red Sauce," said Mum. The one with Tomatos. Now I know ~~which~~ which one.

10 min later... "Mum are you done," said Scarlet

I am. here Dinner is served. This Smells

Delicious. Yum! This looks amazing. Slurp, Slurp as Scarlet Suckles up all the Spaghetti.

Mum gave Spooky a small bowl of pasta with no meat, not even a tiny piece. Spooky only likes tuna and other fish. Meow, Meow, Spooky went. when Spooky says meow once it means she is hungry. if she meows twice it means she wants something. like now. Surley it isent that urgent. I still have so much spaghetti left in my bowl.

She started to get ~~bored~~ bored and wondered for a second. Suddenly in a flash a whole bunch of ideas came. when Mum wasent looking she added a couple spoon of more pasta to her bowl. After she got a big plate and made verry cool things out of pasta. In a blink of an eye Scarlet realised all the things she made got bigger and bigger. It was at that moment when she realised all the thing whe made out of spaghetti. Trees, houses and even all the animals. When Scarlet was about to get her cat. A wierd looking lady came and said "If you whant this to be normal again you need to find the key to the window."

It was at that moment she ran and ran until she fell down a deep hill...

Scarlet woke up and felt dizzy. She started to walk around and saw something gold it was as bright as the sun, and as pretty as a diamonds. I ~~opened~~ opened the Spaghetti door. And what I saw was amazing it was Spagetgirl with the magical key and the map to the window. Then I saw mum and Spooky the cat. Mum was super mad at me. I followed the map and it led to a deep dark cave. And found the window all I have to do was put the key in and... Why am I still eating Spaghetti. At least it is back to normal. "I'm glad I went to Spaghetti land it was fun", said Scarlet. I agree said mum. Maybe next time we don't eat Spaghetti, or maybe next time we stay at Spaghetti land!
